*"During a childhood Thanksgiving, my mom's candles caught the kitchen curtains and some decorative greenery on fire. My sister, my cousins and I were at the 'kid's table' — in the kitchen — while the adults were in the dining room...so no one of significance noticed anything except me. Before we started eating, my mom threatened us with pain of death if we 'annoyed' the adults during dinner. So, when the fire got out of hand, I quietly walked to the dining room and stood silently for a minute or two, until someone noticed me. Only then did I **POLITELY** say, 'sorry, but the kitchen's on fire.'" "My mom still gives me grief about my prioritizing politeness over sense."*

This hit home for me

When a flashlight grows dim or quits working, do you just throw it away?

Of course not. You change the batteries.

When a person messes up or finds themselves in a dark place, do you cast them aside?

Of course not! You help them change their batteries.

Some need AA...attention and affection; some need AAA...attention, affection, and acceptance; some need C...compassion; some need D...direction. And if they still don't seem to shine...simply sit with them quietly and share your light.

I'm Not Going Outside

Until The Temperature Is Above My Age.

Farmer's Almanac says:

The 2022-2023 General Winter Forecast

What's shaping the weather? Recent Solar Cycle 24 had the lowest level of solar activity in more than 100 years. We are now early in Cycle 25, which is expected to peak around July 2025 and also bring diminished activity, which historically has meant cooler temperatures, on average, across Earth.

We believe that most of the U.S. will be colder than normal this winter, although summer will be mostly warmer than usual. In addition to a neutral to perhaps weak El Niño, important weather influences will include a continued warm phase of the Atlantic Multidecadal Oscillation (AMO), a neutral to positive North Atlantic Oscillation (NAO), and a negative Pacific Decadal Oscillation (PDO). Oscillations are linked ocean-atmosphere patterns that can have long-term effects on the weather.

LET'S MEET CITY COUNCIL ~ RICHARD CHEATLEY

RIVERDALE HAS BEEN A FAVORITE PLACE OF MINE DATING BACK TO THE EARLY 70S. LOCATION ON THE LAKE, SIZE (SMALL) , AND PEOPLE ARE ALL LIKABLE TRAITS OF RIVERDALE I USED TO FISH HERE BACK IN THE EARLY 70S AND FIGURED IT WAS A GREAT PLACE TO LIVE. BOUGHT LOTS IN THE EARLY 90S AND MOVED HERE IN 2010.

WHY AM I ON CITY COUNCIL? IT IS MY NATURE TO GIVE BACK. I FEEL IT IS THE DUTY OF A CITIZEN TO PARTICIPATE IN GOVERNING OF THEIR CITY, STATE, OR COUNTRY. TOO MANY ARE CONTENT TO SIT BACK AND COMPLAIN.

RIVERDALE IS A SMALL COMMUNITY SITTING IN A MOST BEAUTIFUL LOCATION. SOMETIMES WE FORGET WHAT WE HAVE. THE POSSIBILITIES FOR RECREATION ARE ENDLESS AND IS A MAJOR SELLING POINT. WE DON'T HAVE ALL THE SHOPPING AMENITIES OF LARGER CITIES BUT WE DON'T HAVE ALL THE HEADACHES THAT GO WITH MAJOR SHOPPING AREAS AND THEY ARE WITHIN A FEW MINUTES DRIVE.

WE ARE, AS A SMALL COMMUNITY, HAVE THE SAME HEADACHES AS A LARGE URBAN AREA INFRASTRUCTURE HAS BEEN SOMEWHAT NEGLECTED. THE COUNCIL HAS STARTED A SERIES OF UPKEEP AND REPLACEMENT OF WATERLINE GATE VALVES. MOST CANNOT BE CLOSED WHICH MAKES WATERLINE REPAIRS DIFFICULT. ALSO A LARGE PROJECT OF RAW WATERLINE REPLACEMENT IS BEING PURSUED.

I CAME TO RIVERDALE AFTER 34 YEARS OF WORKING IN EDUCATION. GROWING UP ON A FARM IN NORTHEAST ND I HAVE A GREAT APPRECIATION FOR SMALL COMMUNITIES AND MADE THE DECISION TO LIVE HERE MANY YEARS AGO. THE DECISION TO GO INTO EDUCATION CAME WHILE DOING AN 8 WEEK STINT AS A DRILL INSTRUCTOR IN FT. SILL, OKLAHOMA AFTER A TOUR IN VIETNAM I RETURNED TO FINISH MY DEGREE FOLLOWED BY A MASTERS IN ADMINISTRATION. RETIRING IN 2005. I MOVED TO RIVERDALE IN. 2010.

WE ARE THANKFUL FOR YOU!

HAPPY
THANKSGIVING

North Dakota Game and Fish Department

Outdoor enthusiasts need to be aware of early ice conditions before traveling onto and across North Dakota waters. A few reminders include:

- **Edges firm up faster than farther out from shore.**
- **Snow insulates ice, which in turn inhibits solid ice formation, hiding cracks, weak & open water areas.**
- **Ice can form overnight, causing unstable conditions. Ice thickness is not consistent, as it can vary significantly within a few inches.**
- **Avoid cracks, pressure ridges, slushy or darker areas that signal thinner ice. The same goes for ice that forms around partially submerged trees, brush, embankments or other structures.**
 - **Anglers should drill test holes as they make their way out on the lake, and an ice chisel should be used to check ice thickness while moving around.**
 - **Daily temperature changes cause ice to expand and contract, affecting its strength.**
- **The following minimums are recommended for travel on clear-blue lake ice formed under ideal conditions. However, early in winter its a good idea to double these figures to be safe: 4 inches for a group walking single file; 6 inches for a snowmobile or all-terrain vehicle; 8-12 inches for an automobile; and 12-15 inches for a pickup/truck.**

And some life-saving safety tips:

- **Wear a personal flotation device and carry a cell phone.**
- **Carry ice picks or a set of screwdrivers to pull yourself back on the ice if you fall through.**
- **If someone breaks through the ice, call 911 immediately. Rescue attempts should employ a long pole, board, rope, blanket or snowmobile suit. If that's not possible, throw the victim a life jacket, empty water jug or other buoyant object. Go to the victim as a last resort, but do this by forming a human chain where rescuers lie on the ice with each person holding the feet of the person in front.**
- **To treat hypothermia, replace wet clothing with dry clothing and immediately transport the victim to a hospital.**

Mountain Lion Zone 1 Late Season Opens

North Dakotas early mountain lion season in Zone 1 closed Nov. 20, and the late season, when hunters can pursue lions with dogs, is open. During the early season, hunters took three cats from a harvest limit of eight. Under the season structure, a conditional season could open five days after the late season closes for hunters to pursue the additional five mountain lions that were not taken.

The late season in Zone 1 is scheduled to run through March 31, 2023, or until the harvest limit is reached. The late season harvest limit is seven total lions or three female lions, whichever comes first.

Hunters are advised to check the status of the late season by visiting the North Dakota Game and Fish Department website, gf.nd.gov. Zone 1 includes land in western North Dakota south of ND Highway 1804 from the Montana border to the point where ND Highway 1804 lies directly across Lake Sakakawea from ND Highway 8, crossing Lake Sakakawea, then south along ND Highway 8 to ND Highway 200, then west on ND Highway 200 to U.S. Highway 85, then south on U.S. Highway 85 to the South Dakota border. The mountain lion season in Zone 2, which is the rest of the state outside Zone 1, has no harvest limit and is open through March 31, 2023. The mountain lion season is open only to North Dakota residents. Hunters need a furbearer or combination license to participate.
